Who Are We?

The Junior Historians of the Somerset Historical Center are a dedicated group of students aged 10 and up who are passionate about history and immersive, hands-on education. Junior Historians are expected to embrace the program's mission by participating in educational programs and dedicating their time to Mountain Craft Days demonstrations.

What We Do

Junior Historians gain practical experience interpreting exhibits and historic buildings, mastering traditional crafts and domestic skills, and deepening their understanding of artifact conservation. In turn, this program equips young historians with the knowledge and confidence to effectively share history with others. At the end of the program, Junior Historians are encouraged to showcase their abilities by demonstrating them at Mountain Craft Days.
